

IRRIGATION SERVICE - TIME OF USE	IRG - TOU															
<p>APPLICABLE: To all consumers served in the State of Wyoming for irrigation purposes, subject to the established rules and regulations of the Cooperative.</p>																
<p>CHARACTER OF SERVICE: Three-Phase, 60 cycles, at standard voltages</p>																
<p>RATE:</p> <table><tr><td>Horsepower Charge:</td><td>\$16.25</td><td>per horsepower per year, minimum \$504 per year</td></tr><tr><td colspan="3">This charge is billed in five (5) equal amounts during the months of May - Sept.</td></tr><tr><td>Retail Demand Charge:</td><td>\$7.97</td><td>per kW of Retail Demand</td></tr><tr><td>Generation Demand Charge:</td><td>\$29.50</td><td>per kW of Generation Demand</td></tr><tr><td>Energy Charge:</td><td>\$0.0365</td><td>per kWh per month</td></tr></table> <p>Any adjustments to the above base rate shall be reflected on the Rate Rider Tariff Sheet 14</p>		Horsepower Charge:	\$16.25	per horsepower per year, minimum \$504 per year	This charge is billed in five (5) equal amounts during the months of May - Sept.			Retail Demand Charge:	\$7.97	per kW of Retail Demand	Generation Demand Charge:	\$29.50	per kW of Generation Demand	Energy Charge:	\$0.0365	per kWh per month
Horsepower Charge:	\$16.25	per horsepower per year, minimum \$504 per year														
This charge is billed in five (5) equal amounts during the months of May - Sept.																
Retail Demand Charge:	\$7.97	per kW of Retail Demand														
Generation Demand Charge:	\$29.50	per kW of Generation Demand														
Energy Charge:	\$0.0365	per kWh per month														
<p>DETERMINATION OF RETAIL DEMAND: The Retail Demand shall be the maximum kilowatt (kW) established by the consumer for any thirty (30) consecutive minutes during the month for which the bill is rendered as indicated or recorded on a demand meter and adjusted for power factor as provided below.</p>																
<p>DETERMINATION OF GENERATION DEMAND: The Generation Demand shall be the maximum kilowatt (kW) established by the consumer for any thirty (30) consecutive minutes coincident with the wholesale supplier's generation billing demand during the month for which the bill is rendered as indicated or recorded on a demand meter and adjusted for power factor as provided below.</p> <p>The wholesale supplier's generation billing demand shall be the Cooperative's highest thirty (30) minute integrated total demand measured in each monthly billing period during the wholesale supplier's Summer Peak Period or the Winter Peak Period. The generation billing demand shall be the maximum coincident peak demand for all of the Cooperative's points of delivery, the same as if the service were provided to the Cooperative at one point of delivery.</p> <p>The wholesale supplier's Summer Peak Period is from 7:00 AM through 10:00 PM (the billing ½ hour period ending 7:30 AM through the billing ½ hour period ending at 10:00 PM) daily during the months of April through September. The wholesale supplier's Winter Peak Periods are from 5:30 AM through 12:00 PM (the billing ½ hour period ending 6:00 AM through the billing ½ hour period ending at 12:00 PM) and from 4:30 PM through 10:30 PM (the billing ½ hour period ending 5:00 PM through the billing ½ hour period ending 10:30 PM) daily during the months of October through March.</p>

IRRIGATION SERVICE - TIME OF USE	IRG - TOU
<p>REQUEST FOR IDLE SERVICE: All customers requesting status as an Idle Service Customer, shall apply with the Cooperative by June 1st. For Idle Irrigation Services, the minimum charge shall be \$10.25 per installed HP per year.</p> <p>DETERMINATION OF HORSEPOWER FOR BILLING: The billing horsepower shall be determined by multiplying the highest registered demand from the previous season by a factor of 1.34, or by measuring the demand following a new installation of motor(s), but in no case shall the annual billing horsepower charge be less than twelve times the General Service 3-Phase Basic Charge.</p> <p>SERVICE PROVISIONS: All wiring, poles, lines and other electrical equipment beyond the metering point shall be considered the distribution system of the consumer and shall be furnished and maintained by the consumer.</p> <p>POWER FACTOR ADJUSTMENT: The consumer agrees to maintain unity power factor as nearly as practicable. Billing demand units shall be adjusted for average power factors lower than ninety-five percent (95%), when the Cooperative deems necessary. Such adjustments will be made by increasing the measured demand one percent (1%) for each one percent (1%) by which the average power factor is less than ninety-five percent (95%) lagging.</p> <p>TERMS OF PAYMENT: The above charges are net and become due and payable upon the receipt of the statement. A one and one-half percent (1½%) charge will be added to any outstanding balance due fifteen days from the date of mailing indicated on the billing statement.</p>
