Your cooperative is a proud member of these fine organizations

One of the benefits of being a member of Wyrulec Company is that you are also an owner. Your ownership is reflected in any excess margins the cooperative might have at the end of the year, above and beyond the cost of providing electricity to you.

These excess margins are tracked through what we call “capital credits.” Each member of the cooperative is allocated their share of capital credits or excess margins based on their patronage provided to the cooperative each operating year. These capital credits are held as equity in the cooperative and provide financial stability to the company for many years into the future.

Each year the board of directors reviews the financial position of the cooperative and makes a decision whether or not to “retire” capital credits back to the membership. When capital credits are retired, they are sent back to the member in the form of a check. It is Wyrulec’s goal to retire five percent of the outstanding operating margins or capital credits back to the membership each year on a FIFO (first in - first out) basis. The accounting term “FIFO” means that the members who first provided the equity to the company will be the first ones to get their equity back.

## Electrical Safety Tips for Hunters

We encourage all members to be aware of electrical equipment while hunting. Keep these safety tips in mind as you enjoy the great outdoors.

- Keep clear of electrical equipment.
- Do not shoot at or near power lines or insulators.
- Know where power lines and equipment are located where you hunt.
- Be vigilant in wooded areas where power lines may not be as visible.
- Never place deer stands on utility poles.
- Never place decoys on power lines or other utility equipment.
